- I. INTRODUCTION
- II. GEOGRAPHIC DIVERGENCE
  - A. Barley
  - B. Wheat
  - C. Sorghum, Millets, and Maize
  - D. Rice
  - E. Pulses
- III. FACTORS AFFECTING DIVERSITY
  - A. Pests and Diseases as Coevolving Pressures
  - B. Abiotic Environmental Variables
  - C. Abiotic Stresses
  - D. Farmers' Selection and Farming Practices
  - E. Interactions of Factors
- IV. CONCLUSIONS
- LITERATURE CITED

\*The authors thank Dr. D. Jarvis for commenting on a draft of this review and for encouragement and three anonymous reviewers for helpful criticism. The review was undertaken while AHDB was Honorary Research Fellow with IPGRI (International Plant Genetics Resources Institute).
